

## Nine Cross-Border Startups Will Unveil Their Innovative Solutions at Chinaccelerator Batch 16 Demo Day

Shanghai, China – Nine rising startups in **fintech, insurtech, SaaS, travel, social commerce**, and more will unveil their innovative solutions to the world at Chinaccelerator Batch 16 Demo Day on Wednesday, November 27 in Shanghai.

Chinaccelerator, the first startup accelerator in Asia, has been helping startups cross borders — from the world to China, and China to the world — since 2010. Over that period, Chinaccelerator has invested in over 150 startups across a wide range of industries spanning fintech, enterprise software, edtech, healthcare, blockchain, AI, and more. To date, Chinaccelerator is the first and only active accelerator in Asia to have a unicorn go through its program, BitMex from Batch 8 in Fall 2015.

Chinaccelerator is backed by the US venture fund SOSV, annually ranked as one of the most active early stage investors in the world with US\$650+ AUM. Over the last four years, SOSV has invested almost US\$150m in around 700 companies who have gone on to raise an additional US\$800m from other VCs. Today the total value of these investments is US\$10 billion.

This success has enabled SOSV and Chinaccelerator to continue to attract, identify, and work with the most driven, fast-learning, and solutions-focused companies out there. Batch 16 companies hail from cities such as Shanghai, Paris, Manila, Hong Kong, London, and Kuala Lumpur. Each company is solving real problems and is led by entrepreneurs who possess a mix of vision and industry expertise.

Through the intensive Chinaccelerator program, these companies have achieved considerable growth and traction. They're breaking new ground in their respective fields while demonstrating business agility and utilizing deep technology like computer vision. At Batch 16 Demo Day on November 27, they present their key advantages, achievements, and vision.

About Chinaccelerator: **Chinaccelerator** is a mentorship-driven program assisting internet startups from around the world cross borders. It is operated by the venture fund SOSV, which has \$650 AUM and operates 7 global accelerators. Chinaccelerator offers three months of rigorous guidance, training, and resources from mentors, partners, and investors. The robust and active alumni network continues to support startups long after they complete the Chinaccelerator program.
